

switching

```
graph LR; A[switching] --> B[bitofstatus]
```

The diagram consists of two rectangular boxes connected by a horizontal blue arrow. The left box is white with a black border and contains the text 'switching'. The right box is gray with a black border and contains the text 'bitofstatus'. The blue arrow points from the right side of the 'switching' box to the left side of the 'bitofstatus' box.

bitofstatus
