

allocate_in_Heap_Bool

allocate_in_Heap_Bool

correctionsEasyMode

makeArrayEmpty_Bool

```
graph LR; A[allocate_in_Heap_Bool] --> D[makeArrayEmpty_Bool]; B[allocate_in_Heap_Bool] --> D; C[correctionsEasyMode] --> D;
```

The diagram illustrates a flow where three separate components on the left—two labeled 'allocate_in_Heap_Bool' and one labeled 'correctionsEasyMode'—all point via blue arrows to a single component on the right labeled 'makeArrayEmpty_Bool'. The boxes on the left are white with black borders, while the box on the right is gray with a black border.
